EQUIPMENT TYPE/MAKE/MODEL/DESCRIPTION

SUMMARIZE THE EPISODE INCLUDING A DETAILED DESCRIPTION OF EVIDENCE TAKEN ( Use Episode Report Supplement Form PR-ENF-127A if Additional Space is Needed)

On February 12, 2014, Deputy Director Greg Creekmur contacted Inspector Patrick Duggan regarding a parent's concern about pesticide applications at Malibu High School in October 2013. Photographs were provided by the parent, one of which showed a sign posted at a dug-out; the sign had Stanley Pest Control (Van Nuys office) listed as the contact, as well as a list of active ingredients the company may use.

Inspector Duggan visited the office of Stanley Pest Control and spoke to the branch manager, Thomas Duran (QAL 129470). Inspector Duggan requested the pesticide use records from October 2013 for the service performed at Malibu High School, as well as a copy of the company's 2013 Restricted Materials Permit, and monthly pesticide use reports for September, October, and December of 2013. The inspector also showed Mr. Duran a copy of the registered label for Fumitoxin tablets, with the focus on the label requirements for sign posting.

Mr. Duran stated that the applicator who services Malibu High School is John Reynolds (QAL 103596).

LOCATION/SUBJECT <b>Malibu High School</b>	PRIORITY/MHS NO.	OTHER I.D. NO.	COUNTY OF OCCURRENCE <b>Los Angeles</b>	DATE OF OCCURRENCE MO <b>10</b> DAY YR <b>2013</b>
REPORT TYPE <input checked="" type="checkbox"/> NARRATIVE CONTINUATION <input type="checkbox"/> SUPPLEMENTAL REPORT <input type="checkbox"/> OTHER REPORT				

**REMARKS**

Inspector Duggan spoke to Mr. Reynolds via telephone. Mr. Reynolds stated he has not used aluminum phosphide at Malibu High School since May or June 2012. When asked what he used at Malibu High School in October 2013, Mr. Reynolds stated he used Omega and Wilco Ground Squirrel bait.

Mr. Reynolds mentioned that all but one of his general posting signs has been torn down, and he continually needs to replace them. Inspector Duggan asked Mr. Reynolds how the property operator was notified of pesticide use prior to the pesticide applications. Mr. Reynolds stated a notice is given at the beginning of the year. Mr. Reynolds stated he inspects the site, and if he finds any evidence of pest activity, and treats it immediately.

Upon reviewing the pesticide use records supplied by Mr. Duran, Inspector Duggan observed that the records did not have the specific sites that were treated, unit(s) treated, nor the EPA registration number for the pesticide(s) used. Inspector Duggan also found that the monthly pesticide use reports (PURs) did not list the use of Wilco Ground Squirrel Bait, as indicated on the pesticide use records, for the months of October, November, and December of 2013. Also, for November 2013, a pesticide use record (invoice number 553375) indicates "ZP Bait 1 oz" (zinc phosphide), but the PUR states no use of a zinc phosphide product. Inspector Duggan also noticed that the Omega Gopher Grain was being reported as structural use (code 10 on the PURs).

Based on the statement made by Mr. Reynolds, Inspector Duggan determined that the notice prior to application is insufficient, and not in compliance with CCR 6618(a)(1).

Inspector Duggan attempted to contact officials at Malibu High School and the Santa Monica-Malibu Unified School District (SMMUSD). However, no one from the school returned the inspector's call or e-mail message. Terance Venable of SMMUSD did leave a brief voice mail message for the inspector, but failed to follow-up on a return call and message from Inspector Duggan.

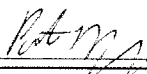

The inspector wanted to notify SMMUSD and Malibu High School of the situation, so that they would be able to comply with the Healthy Schools Act.

Based on the apparent non-compliances for CCR 6619(a)(1), 6624(b)(4-6), and 6627, Inspector Duggan issued violation notice V020-008-13/14 to Stanley Pest Control on form PR-ENF-101 serial number 101-804673.

Inspector Duggan notes that Mr. Duran and Mr. Reynolds were cooperative during the investigation.

# ZP<sup>®</sup> Pocket Gopher Bait

**This Product May Only be Used to Control Pocket Gophers  
in Manual, Below-Ground Applications in Lawns**

**Intended for Residential Use**

*PELLETED BAIT*

*KILLS GOPHERS*

**ACTIVE INGREDIENT:**

Zinc Phosphide (CAS #1314-84-7) ..... 2%

OTHER INGREDIENTS:..... 98%

TOTAL 100%

**ACCEPTED**

**JUN 26 2013**

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act,  
as amended, for the pesticide  
Registered under  
EPA Reg. No. 12455-18

**KEEP OUT OF REACH OF CHILDREN**

## CAUTION

### FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-877-854-2494 for emergency medical treatment information. If you experience signs and symptoms such as nausea, abdominal pain, tightness in chest, or weakness, see a physician immediately. For information on pesticide products (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.

If swallowed	<ul style="list-style-type: none"> <li>• Call a poison control center or doctor immediately for treatment advice or transport the patient to the nearest hospital.</li> <li>• Do not drink water.</li> <li>• Do not administer anything by mouth or induce vomiting unless told to do so by the poison control center or doctor.</li> </ul>
If on skin or clothing	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Rinse skin immediately with plenty of water for 15 – 20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
If in eyes	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.</li> </ul>
If inhaled	<ul style="list-style-type: none"> <li>• Move person to fresh air.</li> <li>• If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.</li> <li>• Call a poison control center or doctor for further treatment advice.</li> </ul>

### TREATMENT FOR PET POISONING

If animal eats bait, call veterinarian at once.

3/5

### NOTE TO PHYSICIAN OR VETERINARIAN

Contains the phosphine-producing active, Zinc Phosphide. Probable mucosal damage may contraindicate the use of gastric lavage. For animals ingesting bait and/or showing poisoning signs, induce vomiting by using hydrogen peroxide. Sodium bicarbonate can be given orally to neutralize the stomach acidity. The stomach and intestinal tract can be evacuated, oxygen administered and cardiac and circulatory stimulants given.

NET WEIGHT:  
1 lb to 5 lb

Manufactured by:

**Bell Laboratories, Inc.**  
3699 Kinsman Blvd.  
Madison, WI 53704 U.S.A.

**Batch Code:**

EPA REG. NO. 12455-18    EPA EST. NO. 12455-WI-1

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ THIS LABEL:** Read this entire label and follow all use directions, use restrictions and use precautions.

### USE RESTRICTIONS:

- This product may only be applied against the pest listed on this label, at the use sites listed on this label, and by the application methods listed on this label.
- This product may only be used to control pocket gophers in manual, below-ground applications in lawns.
- Bait must be applied directly into the burrow systems.
- Do not apply in gardens and areas where food or feed may become contaminated.
- Do not apply this product by the use of an artificial burrow builder.

**APPLICATION DIRECTIONS FOR POCKET GOPHERS:** Apply bait to control pocket gophers using one of the two methods outlined below:

**Plug Removal Baiting:** Burrowing pocket gophers (*Thomomys spp.* and *Geomys spp.*) throw out low, fan shaped mounds on either side of their underground tunnel. These lateral tunnels coming to the surface are on the flat side of the fan and are plugged with soil. Using a long-handled spoon, carefully remove the plug. Insert one teaspoon of bait as far down as possible. Reclose opening, being careful not to cover bait with soil.

**Main Runway Baiting:** To locate main runways, probe about 6 to 8 inches away from mounds by use of an iron bar, a strong stick, or other suitable implement. Resistance on probe will drop suddenly and probe will fall about two inches when main runway is entered. Carefully enlarge the

4 / 5

opening to accommodate insertion of the bait. Insert one teaspoon of bait into each active tunnel. Carefully close the hole with a stone, sod, or soil. Take care not to cover bait with soil.

**FOLLOW-UP:** Wearing waterproof gloves, collect and dispose of dead, exposed animals. Dispose of leftover bait in accordance with disposal instructions. Use detergent and hot water to wash spoons used for application into burrows. Do not use spoon for mixing, holding or transferring food or feed. If reinfestation does occur, repeat treatment.

### **PRECAUTIONARY STATEMENTS**

#### **HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

Harmful if swallowed. Harmful if absorbed through the skin. Avoid contact with eyes. Avoid breathing dust. Wear long-sleeved shirt and long pants, shoes plus socks and waterproof gloves. Wash hands thoroughly with soap and water before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse. Any person who retrieves carcasses or unused bait following application of this product must wear waterproof gloves.

#### **ENVIRONMENTAL HAZARDS**

This product is extremely toxic to birds, fish and other wildlife. Wildlife feeding on treated bait may be killed. Dogs, cats, and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water.

#### **STORAGE AND DISPOSAL**

**STORAGE:** Store only in original container in a dry place inaccessible to children and pets.

**DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partially filled:** Place in trash or call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**DISCLAIMER:** To the extent consistent with applicable law, the seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. To the extent consistent with applicable law, the buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions

## RCO OMEGA GOPHER GRAIN BAIT

### GRAIN BAIT FOR POCKET GOPHERS

#### ACTIVE INGREDIENT:

Strychnine Alkaloid.....0.50%

INERT INGREDIENTS:.....99.50%

TOTAL 100.00%

#### KEEP OUT OF REACH OF CHILDREN

#### DANGER

POISON (Red skull and crossbones)

#### FIRST AID

**IF SWALLOWED:** CALL A PHYSICIAN OR POISON CONTROL CENTER IMMEDIATELY. If less than ten (10) minutes have passed since the poison was taken, give 1 or 2 glasses of water and induce vomiting by touching the back of the throat with finger. Repeat until vomit fluid is clear. Have patient lie down in a quiet, darkened room and keep him warm and quiet. If person is unconscious, do not give anything by mouth and do not induce vomiting.

**IF INHALED:** Remove victim to fresh air. If not breathing, give artificial respiration. Get medical attention.

**IF IN EYES:** Hold eyelids open and flush with steady, gentle stream of water for 15 minutes. Get medical attention.

**IF ON SKIN:** Wash with plenty of soap and water. Get medical attention.

#### NOTE TO PHYSICIAN

Administer 100% OXYGEN by positive pressure to provide as much pulmonary gas exchange as possible, despite seizures. Administer ANTICONVULSANT DRUGS intravenously to control convulsions. NOTICE: It may be difficult or impossible to stop the seizure activity without stopping respiration. Be prepared to maintain pulmonary ventilation mechanically. Tracheotomy may be necessary if seizures are prolonged.

SEE OTHER SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

Manufactured by: RCO International, Inc.  
PO Box 191, Harrisburg, OR 97446

EPA Reg. No. 5042-32  
EPA Est. No. 67442-OR-2

NET CONTENTS: 6 oz., 16 oz.

**PRECAUTIONARY STATEMENT**  
**HAZARD to HUMANS and DOMESTIC ANIMALS**

**DANGER: Convulsive poison!** Fatal if swallowed or inhaled. Harmful if absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin. Do not breathe dust. Do not apply this product in a way that will contact any person or pet. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash clothing before reuse.

**PERSONAL PROTECTIVE EQUIPMENT (PPE)**

Applicators and other handlers must wear:

- long-sleeved shirt and long pants,
- cotton gloves, and
- shoes plus socks.

Keep and wash PPE separately from other laundry.

**USER SAFETY RECOMMENDATIONS**

Users should remove clothing immediately if pesticide gets inside. Then, wash thoroughly and put on clean clothing.

Users should remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish, birds, and other wildlife. Do not allow bait to be exposed on soil surface. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water by the cleaning of equipment or disposal of wastes. Do not apply directly to food or feed crops.

**ENDANGERED SPECIES CONSIDERATIONS**

**NOTICE:** The killing of a member of an endangered species during strychnine baiting operations may result in a fine under the Endangered Species Act. Before baiting, the user is advised to contact the Regional U.S. Fish and Wildlife Service (Endangered Species Specialist) or the local Fish and Game Office for specific information on endangered species. Strychnine baits should not be used in the geographic ranges of the following species except under programs and procedures approved by the USEPA: California condor, San Joaquin kit fox, Morrow Bay kangaroo rat, gray wolf and grizzly bear.

### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal

**PESTICIDE STORAGE:** Store only in original container, in a dry place inaccessible to children, pets and domestic animals.

**PESTICIDE DISPOSAL:** Recover any spilled product. Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available, or place in trash.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**USE RESTRICTIONS:** This product may be used only in manual, subterranean applications in terrestrial food crops and terrestrial nonfood areas to control the following species of pocket gophers: Northern (*Thomomys talpoides*), Southern (*Thomomys umbrinus*), Camas (*Thomomys bulbivorus*), Valley (*Thomomys bottae*), Mazama (*Thomomys mazama*), Plains (*Geomys bursarius*), Mountain (*Thomomys monticola*), and Townsend's pocket gophers (*Thomomys townsendii*).

Bait must be deposited in pocket gophers' underground runways. Do not apply bait above ground. Do not apply this product by means of a burrow-builder machine. Do not apply this product over food or feed crops. Do not expose baits in a manner which presents a hazard to humans, pets, poultry, or livestock. Keep pets, domestic animals, and people not involved with the application out of the treatment area while product is being applied.

**BAITING:** Burrowing pocket gophers throw out low, fan-shaped dirt mounds on either side of their underground runways. Short lateral tunnels connect the mounds to the main runway. Except when a pocket gopher is throwing out dirt, its lateral tunnels are plugged with soil at the mound, often creating a horseshoe-shaped depression. Pocket gophers may be controlled by placing bait in the main runway, after gaining access by removing plugs in lateral tunnels or by probing soil to locate the main runway.

Page 4- Rev. non ag label- 5/08 submission

**Lateral Tunnels:** With a long-handled spoon or other suitable tool, carefully remove dirt plug. Insert a teaspoonful of bait at the junction of the lateral tunnel and the main runway.

Re-close hole, taking care to exclude light and not to allow soil to cover bait. Pick up and properly dispose of any spilled bait.

**Probing:** With a metal rod or other suitable implement, probe soil 6 to 8 inches around mound, starting from plug side, to locate main runway. When runway is entered, resistance on probe will decrease abruptly. Remove probe and insert a teaspoonful of bait through probe hole (enlarged if necessary). Cover opening with a rock, a clump of soil, or other object that will exclude light. Take care not to permit dirt to cover bait. Pick up and properly dispose of any spilled bait.

**Application Rate:** Make two to five sets per burrow system, depending upon its apparent size. Depending upon pocket gopher density, one pound of bait will treat one to eight acres.

**NOTICE:** Because RCO Inc. has no control over storage, handling and conditions of use, which are of critical importance, RCO Inc. makes no representation of warranty, either expressed or implied, for results due to misuse, improper handling or storage of this material. RCO Inc. does not assume any responsibility for injury to persons, crops, animals, soil or property arising out of misuse, improper handling or storage of this material.

Do not apply this product in a way that will contact any person or pet. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash clothing before reuse.

**PERSONAL PROTECTIVE EQUIPMENT (PPE)**

Applicators and other handlers must wear:

- long-sleeved shirt and long pants
- cotton gloves
- shoes plus socks

When disposing of non-rigid containers (e.g. bags), handlers must wear:

- long-sleeved shirt and long pants
- waterproof gloves
- shoes plus socks
- goggles or face shield, and
- dust/mist filtering respirator (NIOSH/MSHA approval number prefix TC-21C), or a NIOSH approved respirator with and N, P, R, or HE filter.

Follow manufacturer's instructions for cleaning and maintaining PPE. If there are no such instructions, use detergent and hot water. Keep and wash PPE separately from other laundry.

**USER SAFETY RECOMMENDATIONS**

Users should remove clothing immediately if pesticide gets inside. Then, wash thoroughly and put on clean clothing.

Users should remove PPE immediately after handling this product. Wash the outside of waterproof gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish, birds, and other wildlife. Do not allow bait to be exposed on soil surface. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water by the cleaning of equipment or disposal of wastes. Do not apply directly to food or feed crops.

**ENDANGERED SPECIES CONSIDERATIONS**

NOTICE: The killing of a member of an endangered species during strychnine baiting operations may result in a fine under the Endangered Species Act. Before baiting, the user is advised to contact the Regional U.S. Fish and Wildlife Service (Endangered Species Specialist) or the local Fish and Game Office for specific information on endangered species. Strychnine baits should not be used in the geographic ranges of the following species except under programs and procedures approved by the USEPA: California condor, San Joaquin kit fox, Morrow Bay kangaroo rat, gray wolf and grizzly bear.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal

**PESTICIDE STORAGE:** Store excess materials in original labeled container in a cool, dry area. Do not stack containers more than three high. Rotate containers end to end at least once a month. Keep containers away from children, pets and domestic animals.

Avoid contamination of other pesticides, fertilizers, food and feed.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Completely empty bag by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of bags in a sanitary landfill or by incineration if allowed by State and local authorities. If burned, stay out of smoke.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**USE RESTRICTIONS:** This product may be used only in manual, subterranean applications in terrestrial food crops, and terrestrial nonfood and forestry areas to control the following species of pocket gophers: Northern (*Thomomys talpoides*), Southern (*Thomomys umbrinus*), Camas (*Thomomys bulbivorus*), Valley (*Thomomys bottae*),

Page 4- Rev ag label 5/08

Mazama (*Thomomys mazama*), Plains (*Geomys bursarius*), Mountain (*Thomomys monticola*), and Townsend's pocket gophers (*Thomomys townsendii*).

Bait must be deposited in pocket gophers' underground runways. Do not apply bait above ground. Do not apply this product by mean of a burrow-builder machine. Do not apply this product over food or feed crops. Do not expose baits in a manner which presents a hazard to humans, pets, poultry, or livestock. NOTICE: Because RCO Inc. has no control over storage, handling and conditions of use, which are of critical importance, RCO Inc. makes no representation of warranty, either expressed or implied, for results due to misuse, improper handling or storage of this material. RCO Inc. does not assume any responsibility for injury to persons, crops, animals, soil or property arising out of misuse, improper handling or storage of this material.

# PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

May be harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Keep away from humans, domestic animals, pets. Keep away from feed or foodstuff. Wear waterproof gloves when handling bait or refilling containers. Wash thoroughly with soap and water after handling bait.

## ENVIRONMENTAL HAZARDS

This product is toxic to mammals, birds, and fish. Dogs and other predatory animals that scavenge mammals and birds might be poisoned if they feed upon animals that have eaten the bait. Do not spray directly to water, or to areas where surface water is present or to intertidal areas below the mean high-water mark. Do not contaminate water when disposing of equipment, wastewater or refuse.

## ENDANGERED SPECIES CONSIDERATIONS

**NOTICE:** It is a Federal offense to use any pesticide in a manner that results in the death of an endangered species. Use of this product may pose a hazard to endangered or threatened species before applying this product, applicators must obtain information regarding the occurrence of endangered species and use limitations for this product. You may call the Endangered Species Hotline at 1-800-447-3813 to obtain an interim Measures pamphlet for your county. You may also consult your local agricultural extension office or state pesticide label agency to determine if there are any requirements for use of this product. In California, obtain a copy of the Interim Measures Bulletin for your county from the County Commissioner's office or from the following Internet site: <https://www.cdpr.ca.gov/docs/labels/index.htm>

Where necessary to protect endangered kangaroo rat, use in tamper resistant bait stations (like Wilco Ground Squirrel Bait Stations) developed for this purpose in association with the California Department of Food and Agriculture and the California Department of Fish and Game. A publication on those stations is available at the website indicated above.

## STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **STORAGE:** Store only in original closed container in a cool, dry place inaccessible to children and pets. Store separately from fertilizer and away from products with strong odors which may contaminate the bait and reduce attractiveness. Carefully sweep up and dispose of any spillage as in the PESTICIDE DISPOSAL.

Wastes resulting from the use of this product may be disposed of at on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Nonrefillable container  
**DO NOT REUSE OR REFILL THIS CONTAINER**  
Offer for recycling if available.

**NOTICE:** Label makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of any and/or handling of this material when such use and/or handling is contrary to label instructions.

**WILCO DISTRIBUTORS, INC.**  
P O BOX 291 • LOMPOC CA 93438  
PH# 805-735-2476  
EPA ESTB. NO.: 36029-CA-01  
EPA REG NO.: 36029-17

# RESTRICTED USE PESTICIDE Due to Hazard to Non-Target Organisms For retail sale to and use only by Certified Applicators or persons under their direct supervision and only for those uses covered by the Certified Applicator's Certification

**GROUND  
SQUIRREL  
BAIT**  
BY  
**WILCO  
AG**

For use around buildings, in noncrop areas (such as along levees and ditch banks, along fence lines), in rangeland and pasture land, and in crop areas (such as orchards) to control California and Townsend Ground Squirrels in California, Nevada, Oregon, Washington, Idaho, and Utah only.

**Ground Squirrel Bait by Wilco is actually  
impregnated by the toxicant.**

Active ingredient:

Diphacinone (CAS 82466)

(2-Diphencylacy 1-1,3-bisindolone)

Other ingredients:

Total:

0.005%  
99.995%  
100.00%

# KEEP OUT OF REACH OF CHILDREN CAUTION FIRST AID

Have label with you when obtaining treatment advice.

If swallowed:  
• Call a poison control center, doctor or 1-800-858-2378 immediately for treatment advice.

• Have person up a glass of water if able to swallow.  
• Do not induce vomiting unless told to do so by a poison control center.

The National Pesticide Telecommunications Network (NPTN) answers questions on medical emergencies, pesticide incidents, and health concerns.

## NOTE TO PHYSICIAN OR VETERINARIAN

Contains diphacinone, an anticoagulant. If swallowed this material may reduce the clotting ability of the blood and cause bleeding for human dogs, or other animals that have ingested this product or have poisoning symptoms (bleeding or elevated prothrombin times), give vitamin K1 intramuscularly or orally. Check prothrombin times until values return to normal.

See left side panel for additional precautionary statement.

NET WT.

☐ 20 LBS. ☐ 40 LBS.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ THIS LABEL:** Read this entire label and follow all use directions and use precautions.

**IMPORTANT:** Do not expose children, pets, or other nontarget animals to rodenticides. To help prevent accidents:

1. Store product not in use in a location out of reach of children, pets, and livestock.
2. Apply this product in secured, tamper-resistant bait stations, (like Wilco Ground Squirrel Bait Stations). These stations must be resistant to destruction by dogs and by children under six years of age and must be constructed and used in ways which prevent such children from reaching into bait compartments and obtaining bait. Even stronger bait stations are needed in areas open to feral livestock, raccoons, bears, other potentially destructive animals, or in areas prone to vandalism. Stations must be secured so that they cannot be overturned by young children, pets, or winds. Stations used in areas open to livestock and/or nontarget wildlife must be secured so that the units cannot be readily overturned by any nontarget animals that have access to them.
3. Dispose of product container, and, unused, spoiled, and unconsumed bait as specified on this label.

## USE RESTRICTIONS:

For use only around buildings, in noncrop areas (such as a long levees and ditch banks, along fence lines), in rangeland and pasture land, and in crop areas (such as orchards) to control California and Townsend Ground Squirrel in California, Nevada, Oregon, Washington, Idaho, and Utah only in secured, tamper-resistant bait stations (like Wilco Ground Squirrel Bait Stations) to control the California Ground Squirrel (Spermophilus beecheyi) and Townsend Ground Squirrel (Spermophilus townsendi).

Do not apply this product by any method not specified on this label. This product may not be broadcast. Wear waterproof gloves when applying this product. With detergent and hot water, wash all implements used for applying bait. Do not use these implements for mixing, loading or transferring food or feed.

**APPLICATION DIRECTIONS:** Secure bait stations at locations where they will be readily accessible to target ground squirrels, preferably near active burrows. Secure stations 20 to 100 feet apart, depending upon density of the population. Wear waterproof gloves and scooping device (preferably long-handled) to transfer bait from the container to the station. Use 2 to 4 pounds of bait per bait station.

Check bait stations frequently to insure that an uninterrupted supply of bait is always available for at least 15 days or until signs of feeding have stopped.

**POST-APPLICATION DIRECTIONS:** Using waterproof gloves, collect and burn (where permitted) or bury all waste dead animals. Dispose of leftover bait according to "Pesticide Disposal".

**KEEP AWAY FROM FOODSTUFFS**

containing restricted materials

### Regulatory Notes:

ALBERT VEGA  
QAL 102609 ABC  
exp. 12/31/2013

I understand that this permit does not relieve me from liability for any damages to any persons or property caused by the use of these pesticides. I waive any claims of liability for damages against the County Department of Agriculture based on the issuance of this permit. I further understand that this permit may be revoked when pesticides are used in conflict with the manufacturer's labeling or in violation of applicable laws, regulations, and specific conditions of this permit. I authorize inspection at all reasonable times and whenever an emergency exists by the Department of Pesticide Regulation or the County Department of Agriculture of all areas treated or to be treated, storage facilities for pesticides or emptied containers and equipment used or to be used in the treatment. I have considered alternative and mitigation measures pursuant to Title 3, California Code of Regulations, section 6426. Taking into account economic, environmental, social, and technological factors, I have adopted those that are feasible and would substantially lessen any significant adverse impact on the environment.

REPORT PREPARED BY **Thomas H. Dureau**

DATE **1-2-14**

**Pest Control Service Notice**  
**WARNING – Pesticide Treated Area**

This property is inspected and treated for the  
control of gophers and ground squirrels.  
The pest management service is regularly  
scheduled for Saturday inspection and service  
between the hours of 6 am and noon.

For control of gophers and ground squirrels the pesticides that may be used are:

1. FUMITOXIN: Aluminum Phosphide – EPA # 72959-1 – Pestcon Systems
2. Wilco Gopher Bait: Strychnine – EPA # 36029-1 – Wilco Distributors
3. Wilco Ground Squirrel Bait: Diphacionone – EPA # 36029-17 –

Wilco Distributors

**ALWAYS BE SAFE**  
**Please Keep Off Area While Application Is**  
**In Progress**
